

*cost effective  
multi use EAVES TRAY*

\*1200mm long  
10 per pack  
600 per pallet

Suitable for:

- all profiled tiles
- all types of slate
- metal & corrugated sheeting

special preformed crease also allows for use with plain tiles.

**EASY TRAY™**  
UNIQUE EAVES PROTECTION

## INSTALLATION PROCEDURE

\*birds comb is not required for flat, plain tiles and slates.

Nail the top of Easy Tray to the rafter.

Easy Tray should be butt jointed onto a rafter and fully supported.

Apply the permatape double sided tape.

Cover in the roof using Permavent Breather Membranes and remove the cover from Permatape.

If required then simply push the birds comb into the unique Easy Tray.

Tile the roof in the usual way.
